

صابر SABER

SINCE 1976

INTRODUCTION

Saber is a group of Saudi factories operating in the industry of Glass & Aluminum processing, producing a high quality, wide range of products & services for governmental, semi-governmental & private sector clients.

Saber has completed projects across the entire Kingdom with a particular focus on the Eastern and Northern provinces of Saudi Arabia, including the Kingdom of Bahrain.

As a company that specializes in the production of glass and aluminium products, Saber plays a critical role in developing the construction and infrastructure sectors in the country.

We are committed to supporting the local industry and creating job opportunities for Saudi nationals. Furthermore, the company is investing in the latest technology and equipment to ensure that they remain competitive and able to meet the country's growing demand for high-quality glass and aluminium products.

By aligning our vision with our country's 2030 goals, we aim to demonstrate our commitment to building a more sustainable and prosperous future.

MISSION

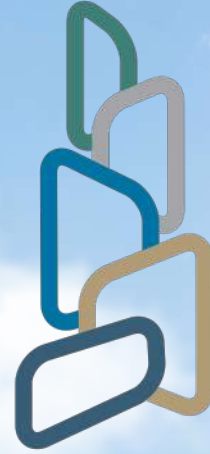

At Saber, we are committed to driving successful investments through a variety of industries. Our commitment to delivering quality products and services ranges from Glass to Aluminium, from selective precise jobs to large scale projects all while striving to excel in our performance.

VISION

At Saber, we strive to be pioneers in the field of glass, aluminium, and steel fabrication. We strive to advance national economy, technology, and society through our work. We are committed to providing our clients with the highest quality products and services while helping to advance national economy, technology, and society.

ENGINEERING TEAM

We have a team of experienced engineers & working professionals who are well recognised and approved by governmental bodies, as well as governmental, semi-governmental and private sector clients.

Our team is dedicated to providing outstanding quality, ensuring that all of our projects meet the highest standards of craftsmanship and professionalism.

PRODUCTION TEAM

Comprised of highly skilled professionals, our team is dedicated to delivering innovative and high-performance solutions for our clients.

Our team leverages advanced software tools and simulation techniques to analyze and optimize designs, resulting in efficient and sustainable solutions. From load-bearing capabilities to thermal performance, acoustic insulation to weather resistance, our engineers meticulously consider every aspect to create robust and long-lasting facades and building envelopes.
